Lions No-Hit Palatine, Split with Carmel

BY DAVE GARLAND

The Visconti varsity baseball club Lions exhibited good pitching, a tight defense, and some fine hitting Saturday, wiping out a young Palatine team 8-0 on a no-hitter by Mike Miller. After dropping an aggressive Carmel team, the visitors at Carmel Saturday, 3-0.

In the opening game of the doubleheader the Lions couldn't quite get untracked, however, and dropped a decision.

THE YOUNG LIONS began the weekend in fine trim by defeating the visiting first-appeared Palatine club behind the nohit pitching of senior Mike Miller and solid hitting of Pat Loughman.

Miller struck out thirteen of the twenty-three men he faced. The only Palatine hit got on base, was a walk, and was walked.

Home Coach Pat Mahoney's Lions didn't waste any time in starting the slaughter. They picked up a single run in the second, three in the third, and two more in the fourth. They finished off with a lone run in the bottom of the ninth.

In the first inning Loughman singled, Ken Presti followed with a double, and Aylward doubled, sending Loughman across. Preski scored on a wild pitch, which was made by the Palatine catcher.

IN THE SECOND, John Wendell and Miller both got on base, and Preski followed with a double. Jack Bruskey triple, scoring both Loughman and Preski.

The Lions got back to work in the fourth when Wendell got on base, Preski followed with a single, and Aylward second. He held up while Bruskey walked, but on the next play walked, and on the result of another error, Preski scored. The second, and Wendell scored.

Loughman then scored second, and Preski scored single by Preski.

The Visconti's victory was in the sixth, coming home when Loughman doubled.

Saturday afternoon the Lions had trouble getting untracked, but did get it going, a doubleheader with Carmel at the Museum of Science. One of their coaches, Mahoney is serving with the National Guard in Vietnam, Chicago, and the Rev. Patrick Cahill, St. Viateor's athletic director, took his helm in Mahoney's absence.

The Lions could get only one run in the first, but in the twenty-one official trips to the plate.

Carmel got its first run in the second inning on an overthrow by Preski. In the fourth the Lions tied the game.

score on three Carmel errors.

Patrice got on by way of an error, and Preski followed on an overthrow. Aylward also got on by an error, but got out on a foul tip.

The Lions defense held on until the middle of the fifth when Preski picked up a pair of runs to set the final score.

IN THE SIXTH the Lions took the lead, nightcap of the doubleheader, shutting out Carmel. The stars of the game were Preski, who had a creditable job of getting the ball to the right man, and Preski who got sheltered for eight hits. He can thank the rest of his team for his success.

The Dunlops Return From the Arctic Circle

By RICHARD CRABB

The Dunlops are home and in their case, that's something of an achievement.

Since mid-February, Mr. and Mrs. Donald and Linda Dunlop, 1115 Mayfair, have lived in an Eskimo home north of the Arctic Circle, in a village called Eskimo village with the thermometer consistently at 45 below zero, taken a dog sled ride over the frozen Bering Sea, fished for salmon in the Bering Sea (Mr. D. caught a fish too), learned to play Eskimo games, and became members of an Explorer Post of Eskimo Boy Scouts, assisted in building a house, and in the light of the six-month Arctic night, learned to live in its end, and a host of related activities in Arctic fox and owl on the Alaskan tundra.

They are the first of the Russian Arctic at the point it borders the United States of America. The farthest to the north, Little Diomede is 10 miles from the National Dog Sled Race Capital of Alaska. They saw the old Russian capital of the Arctic, Wrangel Island, directly from the Arctic winter to San Antonio's words, "We were the first to Mexico, participated in the Royal Orange International Kit's Cup, and saw Venezuela fish in the Caribbean and visited the grave of Simon Bolivar in Bogota."

RICHARD DUNLOP, author and outdoor writer, was gathering material in the extreme north of the Yukon and Mrs. Dunlop north of the Arctic Circle and south to subarctic Canada, Mexico and the Caribbean.

The Dunlops took a plane the day after leaving Anchorage off to Seattle, changed to a train, and when they got there, were assigned to Juneau and to have no more than a few hours to get to Anchorage the day after left Arlington Heights, reported Dunlop.

"Seattle to Anchorage by air, we took time to tour the areas of Anchorage so terribly weathered by the blizzard just about two years ago. It is amazing how quickly they rebuilt since the tragedy. Anchorage boasts that its downed trees have been replaced, space-chunks to the quake and the leveled areas where trees once stood," Dunlop said.

"LATER THE SAME day we flew to Kotzebue beyond the Arctic Circle. In Kotzebue Eskimos found we had 54 below zero. The temperature was a cool 49 below when we looked at the thermometer at noon."

"IN ONE OF THE Seward Peninsula we attended an Eskimo wedding. The Eskimos have many carvings, Eskimo love beautiful things in both wood and bone and the tasks of mastodon day, dog, seal, whale," Mrs. Dunlop explained.

Only Dunlop said that the only ones who could go north with Arctic Circle cold are the people who prepare to meet it. "We were prepared with ample insulation, tools, couple of warm shirts, couple of warm hats, couple of warm pants," he added.

"Richard was an orange-tinted hunting cap beneath his parka and I wore a parka jacket. The Eskimos called him 'duck' ball." Breath on your nose would freeze and instantly be a coat of ice.

"ICICLES FORM on the chins and best of all on mosquito bites. I had a wolverine tooth that his breath didn't frost it so."

Uncle Sam to Finance Teachers of Handicapped

Training grants totaling \$1,000 per year will be given in nine colleges, universities, and state educational institutions. Grants will be disbursed between June 1, 1968 and August 1, 1969.

The grants will be used by the U. S. Office of Education will be used to help train persons to teach children of handicapped children.

"About 10,000 children across the country will be enrolled in the program, placing them in training specialists already working with the handicapped, said George L. Johnson, Commissioner for the training plan.

Gallagher said the grants, totaling over \$23 million nationwide, will help close the gap in training programs to give,

buddy, but I had a wolf hood made up locally.

"We took a dog sled trip out onto the Bering Sea and saw a reindeer herd. The trapper flushed out Arctic foxes and seals. They report that the reindeer are fleet and beautiful.

"AS A RESULT when we made out official effort, our team of four dogs pulled us right into a terrible figure eight right into the sea. The Arctic Fox was the last to be pulled and was posted as the favorite.

"AIS, the powerful reindeer, was the last to be pulled. When we repeated it with the assistance of a 12-year-old Eskimo boy, he did it easily.

"ONE AFTERNOON," said Dunlop, "Bob Spring, a Swede, and I took a small plane and flew out over the Bering Sea to Siberia. Big Diomede Island in the Bering Sea is in 'Aurora' in the Arlington Heights in August," the Arlington Heights said.

"WE flew right down the Venezuelan coast on the Caribbean, the party flew down the Amazon River and dove over the U. S. Eskimos to the grave of the liberator, Bolivar, of Venezuela was second.

"CARRIERS have many freeways below skyscrapers and lavish shopping centers, and clubs with stylifying signs on the bills," said the Arlington Heights reporter.

The Dunlops came out of the Arctic Circle to find the National Dog Sled race in Anchorage, and the famous Eskimo Inn in Sitka, the old Russian capital of Alaska. We had the pleasure of meeting the Bishop Theodosius of the Orthodox Church.

The Bishop is known as the old onion-domed temple reported.

FROM ALASKA the couple flew on to Texas where for fun they went their plan to see the state of Texas for one day. At San Antonio Dunlop attended the Society of American Travel Writers.

The Dunlops were invited to the next convention which is being held in Vienna next October. They will preview Hemera which they report is excellent.

A week later Dunlop went to the Society of American Travel Writers in Littleton where they were guest at the opening of the

Arlington Batters Elgin-Larkin

Earn 84½-42½ Track Win

Gary Fagerson's pole vault win at 12'6" was one of 11 Arlington first place finishes Saturday as the Cags flew past Elgin-Larkin, 84½-42½.

Cards Meet Comparcs

With NU-UC Showings

If the Arlington - Elgin-Larkin and Northwestern University of Chicago meets last weekend are any indication, there is little reason for concern about the Cards.

In the 12 events run in each of the meets, the winning times and distances were better in the high school meet than in any previous competition.

Arlington won their dual, 84½-42½, while Northwestern smacked them, 10-8.

Coach Bruce Sauer says that the collegians ran at Dyche Stadium, which doesn't have an all-weather track, while the Cards performed on home grounds, which are all-weather facilities.

The comparison of the two performances is nonetheless striking, since the college meet included seven events not in the high school competition.

Meet The Coach

Jim Wright, 26, has been varsity tennis coach at Prospect High School for three years. A 1964 graduate of Oberlin College in Ohio, Wright is a native of Whiteman, IL. He majored in English in undergraduate work and completed his master's degree in education from the University of Illinois in Urbana, IL. He also head coach of the freshman baseball squad, and teaches junior English classes at the school.

Maine S. Bumps Falcons

(Continued from Page 5) Maine South caught the Falcons off guard and he eventually scored a 10-1 victory over the Hawks in the fourth. A porous defense and some scoring and winning by the blizzard of Monday afternoon.

A strong third strike allowed Wally Gipe to go to first, but he had to stop short, when he was forced to a 4-3 double play as Emerson scored.

TOM BARTLETT sent one to shortstop Perez to begin the fifth, but the Falcons, led by Perez, fired first in time to get him. Marti Emmons followed with a single, the second out, and Smoky Major, Falcon first baseman,

watched a third strike go to end the inning.

Bill Teichert came in to pitch in the sixth, but the top of the fifth had been so poor, he quickly put out fire the first time through. The Falcons restored with a clean sweep in the mile run, Keith Matthews winning by a nose.

Boncha, Passarelli, Robins and Teichert combined for a 3-4-6 mile relay win, while Herb Imhoff was busy trying to catch up with his lags. Highland Park capped the broad jump event, edging the Falcons by a point, Robins by one and one-half inches.

BILL VERNLY'S 5'6" high jump effort earned the Cards the discus 137' at Prospect's other victory.

The Cards' sophomores dropped their end of the meet, failing to win the Little League title.

Allan Morris, a senior, was the top sophomore for the Cards, Morris winning the mile run and Dimeo taking the mile run in 2:14.2.

A Factory Straight from DeMille Epic

Latte operator Mrs. Nellie Katschke of Bensenville casts metal rods which wind up as field power cylinders at Flick-Ready in Bensenville. Visitors to the air-conditioned factory on a where-to-go-during-spring-vacation-trip, see the indoor swimming pool, archery range, and power plant for electric power and natural gas.

Investment in New Homes Shows Sharp March Rise

A sharp increase in new home building in Arlington Heights homes was revealed today in construction figures for March.

The average investment in new homes during March increased by \$32,000 over the figure for February.

The average investment in new homes during March increased by \$32,000 over the figure for February. The total cost of new homes in the first month of the year was \$26,000. For the first two months of this year the average investment in new homes was \$26,000. For the first three months of the year the higher investment is attributable to the higher costs of land. The remaining part of the large increase results from the building of larger and more fully equipped homes.

A new home building record for Arlington Heights

is to be in the making for 1968. The Arlington Heights home building boom started to lead the way, but the real estate market's activity in the south part of the village continued to lead the way, but the real estate market's activity in the south part of the village where there is a large number of new home buildings than in the northern areas of the town.

THE INVESTMENT

The investment is up almost 100 per cent compared to the figure for February.

The average investment, exclusive of new houses, in the first month of the year was \$26,000. For the second month of the year the average investment was \$44,000.

The total investment in new homes in the first month of the year was \$473,500. The first quarter investment in new homes in 1967 was \$100,000.

Although heavy apartment building activity is expected in Arlington Heights during the year, there was not a large number of new permits issued during the first quarter.

Permits were issued during the first month of the year for buildings. Total cost of business building construction was \$100,000.

The Bank of Arlington Heights' investment in new houses in the first month of the year was \$100,000. The White House shopping center at the intersection of Grove and Main Streets had a cost of \$85,000. An addition to the Evans House on Main Street was accounted for the remainder.

Four Left in Race For Superintendent

Only four candidates are left in the race to replace resigning Prospect Heights School District 23 Superintendent Louis P. Pasciak, who will preside over Monday night's school board meeting.

Because so many candidates applied for the position, the board's screening committee took advantage of the services of the Cook County Supy. of Schools, Robert Harschman, office.

The four candidates, a graduate student at NIU, are: John J. DeKalb; Edward Grodski, a school principal in School

District 63; Nellie H. Bauer, a principal at Glenview Junior High school and the principal of District 23's Maywood Junior High School, Prospect Heights.

Candidates on the candidates will give board members their views at a public meeting — the first session after the April election.

At the April meeting, closed for April 20, the entire board will interview the remaining four candidates.

THIS calls for a party!

Our total resources are now

\$25,000,000

We're one fourth of the way toward resources of \$100,000,000!

Wouldn't you know something big like this would happen just when we're busy expanding, knocking out walls and creating new departments. We don't feel that we can celebrate resources of \$25,000,000 without you, but the time and the place aren't quite right as yet. So please take a raihneck — we're going to have that party real soon — and we want you there.

(Fourth in a Series)

Though old enough to remember the days of the Technicolor movie spectaculars, might imagine what would have been if the DeMille designed a factory.

A full-length, heavily indented set was built for his employees, day camp activities for their children throughout the summer, a swimming pool, ping pong tables and an assembly hall. The camp is stocked with fish for private sport, and even a small chapel for private meditation might be some of the features he'd like to add.

Unlikely as it seems, such a factory really exists just outside of the city of Marion, Prospect.

You can tour Flick-Ready during spring vacation by phoning Mrs. Lillian Adams, 200 W. Main St., who knows her coming. The plant will be closed all day Monday.

If a community organization is looking for a summer vacation activity, a swimming pool, a place for picnics, anything, make use of its facilities for nominal charges. Anytime between 6-3-4000 will provide details.

A VISIT might even lead

to a job next fall. The company always eager to hire those who show interest who might be interested in a factory office job, or a permanent job can be given.

What working conditions are like, and what it means to himself even to a formal interview.

It's Flick-Ready and what does the factory make?

Fluid power cylinders are the product.

Dialogue

"Waiting for that freight train to finish switching cars is about the most boring moment, especially if you have to get somewhere by a certain time."

"You mean the Chicago and North Western Freight train that goes through the village during the middle of the day, almost every day?"

"I've been wondering about that. Why can't the railroad deliver its freight at night when we'll be home all the time?"

"Well, it seems that it's simpler for the railroad to operate its freight trains during the day, so it's just a matter of overtime or extra pay of some kind for employees

of the companies that would get the freight during the night."

"Then too, it's getting to no one wants to work at night anymore."

"I know. I called a plumber about a stopped up drain one night and he told me to drop right in and call him in the morning."

"Sounds typical. I think it was the same with the cutters who took up the idea after the doctors. They wanted to tell us that the doctors were watching on TV, so they never had to sell meat after 6 p.m."

"And now, a bit later,

the doctors are doing the same thing."

"That must be why the Post

THE MAGNITUDE OF THE ARlington Convention Center is revealed in what is taking place in the first two weeks of April. The Round Table, Tea Room, Convention and Banquet Center capable of seating 1,000 persons will be completed as an addition to the Carousel Room at the Arlington Park at the intersection of Euclid and Madison.

This will be the largest convention center ever built in the suburbs for a new facility.

The building will be opened in May, also the new Future Room will be completed early in June. The building is large enough to serve a banquet for 4,000 people.

Even the grand ballroom of

Chicago's largest hotel, the Palmer House, will be served a meal to 4,000. There is no permanent facility in Chicago that can serve a banquet to 4,000 people.

It is expected that the new Future Room will be used more years away, will be able to serve banquets of this size.

THE NEW FACILITY AT

Arlington is roughly rectangular in shape, with the west end of the large property structure is small and a very large structure is in the rear. The inside of the race track will be the main entrance of which are the stands facing the track.

The building when completed will be 800 feet east and west, and five stories high.

It is being built in three sections. The first was third was opened in time for the racing season last spring. The second section will be completed in May. Plans are to build the final section in time for the opening of the new Future Room.

During the racing season that will be the largest of the year, the building will be life-blood of any convention center in Chicago.

The building's most unique feature is its elevator. The elevator will be open to the public.

It extends from the building and is glass walled so that people can see the tracks of Arlington Park as they ride.

THE NEW ROUND TABLE building will be a south addition, containing 800 seats and will be opened in Mother's Day.

It is a 2-story structure, 100 feet wide and 100 feet deep, seating 800 each. There will be a formal opening in June.

The new round-table transportation, Arlington Park & expansion program will be the main project for the year. It will be announced within days and possibly before the end of April.

The complex is expected to have 400 rooms in a building that will be 300 feet long and 12 stories high. It will be the tallest residential structure in the northern Cook area.

The complex is planned to be located near the intersection of the Round Table, the Carousel and the model will be completed in time for the opening of the new Future Room.

The Round Table, the Carousel and the model will be completed in time for the opening of the new Future Room.

AT THE TIME she announced the new convention center in mid-April, Mrs. Marlene Everett stressed that the new facility will be the largest convention center in the Midwest.

The new Future Room will be the largest room available for conventions, conferences and banquets the year around.

Office closes at 5 p.m., now, so their employees can shop before the stores open again.

"Certainly. It's a growing thing. That's why the railroad stations are so important during the day, to its employees can get to the Post Office, the store, the gas station, the office and all before they close."

"End? It's just getting started. Before you know it, no one will be able to afford to be in operation after 4 p.m."

"Everyone will sit at home and watch television. Shows from an automated TV station, Mail, air and highway traffic will be unwatchable during the day. And then some will call and say, 'What's wrong? We can't switch our freight train at night when there's no traffic?'

"When will I be old enough to see 'The Graduate'?"

BY RICHARD CRABB

A massive transformation is underway at Arlington Park.

In the two years between the spring of 1967 and the spring of 1969, new facilities costing millions of dollars will be installed at the track.

These new facilities are of immense importance to the racing program. The new construction is primarily to support the new "Daylight" conference and trade fair program that will operate the year round.

The Arlington convention center will be the largest in the Chicago area and rank in the top 10 such facilities in the area, including the City of Chicago.

It is being built in three sections. The first was third was opened in time for the racing season last spring. The second section will be completed in May. Plans are to build the final section in time for the opening of the new Future Room.

The building's most unique feature is its elevator. The elevator will be open to the public.

It extends from the building and is glass walled so that people can see the tracks of Arlington Park as they ride.

THE NEW ROUND TABLE building will be a south addition, containing 800 seats and will be opened in Mother's Day.

It is a 2-story structure, 100 feet wide and 100 feet deep, seating 800 each. There will be a formal opening in June.

The new round-table transportation, Arlington Park & expansion program will be the main project for the year. It will be announced within days and possibly before the end of April.

The complex is expected to have 400 rooms in a building that will be 300 feet long and 12 stories high. It will be the tallest residential structure in the northern Cook area.

The complex is planned to be located near the intersection of the Round Table, the Carousel and the model will be completed in time for the opening of the new Future Room.

Arlington's total facilities during the year will be the largest in the Midwest and the second largest in the country.

It will be the life-blood of any convention center in Chicago.

The foremost highway intersection in the Chicago suburbs is situated at the intersection of the Milwaukee Avenue and the Chicago Loop. One corner of the intersection is Rockford, Madison and Minneapolis.

SOON, PERHAPS no more than a dozen years from now, it will stand to Milwaukee, Madison and the Chicago Loop.

From it will be limited access to the highway system with its own entrance and exit ramps capable of serving crowds up to 10,000 per hour.

A final factor that impresses me is the new transportation, Arlington Park is equally as well located. The North Shore Line, the El, the CTA, bus lines directly into the park. O'Hare Airport is only a few miles away.

Ever since the announcement of the new convention center in mid-April, Mrs. Marlene Everett stressed that the new facility will be the largest convention center in the Midwest.

At the time of the announcement, the Arlington Park would be open the year around for conventions, shows and trade fairs begining in May. The new facility will be open for the Chicago automobile show for 1970 and maybe beyond.

It wouldn't be spring without selecting a new Easter bonnet. Some mysterious force compels every woman to search for just the right spring hat, even if she's not a fan of Easter or hats. The search is pursued from military departments to department stores, until that glorious moment when you put on THE hat. There's something about the feel of a new hat that gives you a new lease on life — you're ready to face the world.

Even a young maid enjoys hat hunting for her special occasion, according to Easter outfit. Delicate straw, flowery and dramatic pictures, hats, and straw bags bring this spring's very best accessories into focus.

Hat fashions from the Cynthia Shop in Des Plaines were part of a fashion in color show last night at 12:30 p.m. in the Sunday brunch feature at The Flying Carpet Motor Inn arranged by Betty Cari.

Mini-Jet Set Awaits Arrival of Easter Bunny

Dreaming dreams of Easter in her pastel lace-trimmed Nylon dress with matching bonnet...while lights are tucked inside the fabric! Patent shoes. Fancies from Carson's Toddler Dept. (Photos by Joe Edward).

BY MARILYN HELFERS

Members of the mini-jet set are eagerly awaiting the arrival of their favorite spring hero — the Easter Bunny. At Randolph Easter here — as at Easter everywhere — little admirers who have a hard time deciding whether they should spend their time with the Easter Bunny or the Easter Egg.

Mom is more concerned with finding a suitable outfit for her youngster. Many of little girls will be dressed up again this spring in a return of dresses that emphasize the cuteness of everything nice — the definitely little girl look.

Frills, lace, dotted swans, orange and pretty pink are the colors to wear for this year's Easter parade.

Accessories for little girls are miniature versions of the adult styles. Matching petticoats come with handbags to match. Even the tiniest tyke can have her own hats and white gloves.

Turtlenecks lead Easter fashions for even the youngest. A white turtleneck pullover suit in a strip dry cotton and coordinated with knee socks, he'll equal any young miss in the crowd.

All fashions are available at Carson Pirie Scott & Co. at Randolph.

THE ARLINGTON DAY
Wednesday, April 10, 1956
Page 7**Another Reader Talks Back**

Two weeks ago we ran a note by Mrs. Garry Walsh entitled, "About All Else, Wife and Mother." In The Day, Mrs. Walsh pointed out an answer by Bobbie Pest of Arlington Heights.

Today we have still another note by Mrs. Walsh. We invite our readers to send their comments whenever they feel like doing so.

"I WOULD like to second the sentiments of Bobbie Pest who wrote such an excellent article in The Day recently, 'Above All Else, A Wife and Mother.' Not enough attention is given to the temporary nature of motherhood, to the fact that desirability that constant pregnancy would like to hear more from the psychologists on this latter point."

"Jane had better remember that you offer her a few more years than you won't keep."

BPW to Meet

The Mount Prospect Business and Professional Club will hold its monthly meeting Thursday, April 11, at the Arlington Heights Country Restaurant.

Mrs. Ruth Hofmeister, chairman of the Philanthropic committee, will speak on "Summer Workshop Scholarships to nine high school girls from area schools."

The winners are Laurie Wieser, Darien; Margaret Towne, Winona; Patricia Flanagan, Rolling Meadows; Patricia Rehm, Mount Prospect; Linda Cooper, Rolling Meadows; all of Forest View; Vicki St. Germaine, Des Plaines; Sacred Heart of Mary; Katie Forman, Skokie; and Linda Koenig, Wheeling High School; Gayle Height, Arlington Heights; and Linda Miller, Mount Prospect High School.

Each winner will be a member of the club and will give a short talk on her interests, work, hobbies, and her hobbies and intended career. For reservations, call 235-3000.

Want a family activity that's really different? Go fly a kite. Picture a delightful warm Saturday in April with a gauzy sunburst behind big gods of whipped cream clouds against a delicate blue sky.

Our children, the lawn, crits out there, you get the idea. The yard needs raking. The car needs washin'. Don't care. None of it.

OFF WE GO To Forest View High School where the whole parking lot becomes an immense field for a family of kite fliers.

Hop into the scene. To the west stands an old farmhouse almost ready to tumble down the small hill its perch on.

To the east is another farm with a long fence of paddling trees stretching and nudging each other, prodded by the Spring wind.

Two young men, riding bareback, gallop by on their horses. A car goes by. A truck goes by. A man goes by. A woman goes in and squalls out. Two on a bike pedal in big figure eights.

AND THEN IT'S ALL Ours. Come on Man, you can do it too. Up go our kites without any urging, begging to be let higher. They're like balloons, though they don't descend.

When they start climbing dizzy, we let out the string. When they start to lose altitude, you wind FAST.

When they're 1000, 1200, 1400 feet - that's it, that's all the string.

It's a gentle lift, a cushioned one, here and up there. The wind carries them along and slides them higher. He jerks the string and down they float.

THE CHILDREN run as fast and as far as they can to catch them before they touch ground.

Young ones are cold, but the air is warm and the air starts to chill. Time to rest in the kite and the sun.

What a delightful afternoon. Why don't you and your family go fly a kite?

Above - "Let me try," says Mrs. Hardy, 2, daughter of Mr. and Mrs. James Hardy of Mount Prospect. John Kates has been flying kites with his dad since he was a baby. He flies them higher, but he's not talking about his success letting go of the string.

"I did it! I did it!" Nancy Bruchel, 8-year-old daughter of Mr. and Mrs. Wandaill of Mount Prospect, lets go of the shell of the string, taggng in her hand. Mount Prospect is a hotbed of kite flying, but she's not talking about an epidemic of kite fever there. Be careful, it spreads rapidly.

Chandler, Steele Win Twice

Card Trackmen Prance By Conant, '98-31

Arlington's variety track team dented past Conant '96-31 Tuesday to the Cards' first dual meet of the year against Mid-Schubur League opponents.

The Cougars managed only three first places—by Frank De Gracia, while Top Chaser Tom Hickey and each won twice for the Cards, now 4-0 in overall dual-meet competition.

CHANDLER TOOK the dubious first with a 1640' 24" better than the top gun in the mile in last year's MSL meet.

Arlington's Tom Hickey again was first at 12.11, erased another mark—the Cards' 12-year-old school record.

Chandler also won the shot put first at 32' 9 1/2" and both hurdle events, covering the 120-yard highs in 1.54.2 and the 110 in 1.55.2 in 20.4. Sophomore Scott Butler was the two-mile run Toledonian champion, while David Dinters the half-mile, Tom White the high jump, and Ron Casady the long jump for Arlington's other individual wins.

Chandler, Steele, Rich Ebers, and Somers squared off in the 400 relay by the 4-4-3-4, the 880-yard relay. Ebers aggravating a muscle pull that had kept him out of Tuesday's meet. Dinters, Bill Dietrich, Joe Hooker, and Mike Duffy were set to win the mile relay in 3:29.0.

Sam Wit scores on his way to an 18' leap that brought him first place in the triple jump of Tuesday's Arlington-Conant dual meet. Wit also won the high jump events as the Cards crushed the Cougar underclassmen 101-26.

Cards Golf To 169-178 Win in Debut

Arlington's golf squad—both variety and fresh-sophomore coach Tom Wauchope's golfers—debuted Tuesday by besting Matt-West 169-178.

The Card variety streaked past the Warriors 169-178, while the underclassmen Matt-West 169-172.

EVEN with interman Pete Hahn vacationing in Mexico, the Cards' golfers had enough depth to win. Doug Chapman carded the score of 81-81-81 for nine holes.

Golf's Steve Cuyard

Maine West's Ken Heffes for second place at 42, while Craig and Tom Hickey and sophomore Tom Amour a 44 for Arlington.

Arlington's Lance Boyett and Wes Van Winkle tied for the best score in the round robin, 81-81-81, D'Orsay 84 and Jack Van Veen's 84-84-84.

THE CARDS' NEXT variety results (only) the top four from each team in its own class:

ARLINGTON 169
MAINE WEST 178
LAWRENCE 172, C.A.
Heffes, MW-22; 4. Browsk, A.

9. Duchesne, MW-48; 10.
Gratton, MW-47.

Hawks Clip Gren Tennis Team, 3-2

Eik Graw's variety tennis team took its second match of the season Tuesday to Adelphi Trail in a hard-fought, 3-2 battle.

The Green Knights won no singles, but Peter Lefebvre and his no. 2 doubles team, Andy Lesniak and Pete Lefebvre, won their matches. Don Wilson 75, 60, while Lesniak and Lefebvre aced at 2-7, 9-5 and 7-5 over Pete Chen and Ken Wang.

Eik Grove's Steve Blair was his first set at no. 1 singles, but he and his no. 2 doubles team, Art Chen broke his serve, and went on to a 6-3, 6-3 victory.

Thom, the Gren's No. 2 singles player, 6-1, 6-1, and No. 1 doubles team, Randy Zierman and Rick Bias—fell 2-6, 6-6.

Frasse Bolsters Redbird Infield

Arlington High School's baseball team is listed in the latest state and national rosters of the Illinois State University.

Frasse, a 5-11, 170-pound junior, is back with returning letterman at every position in

and 220-yard dash, while Jeff Riggio earned Conant's other win in the 100-yard dash. Conant's 100-yard dash had even less trouble than the even-numbered events, demolishing the Cards' 100-yard dash.

Sam Wit won three events and Mike Hadley two as the Cards' 100-yard dash was one of meets' 15 first places.

WIT TOOK firsts with a 16.6-second sprint over the high jump at 5'11" and a 2.20-second clocking in the low hurdles. Hadley's first place came in the 100-yard dash, 10.5 seconds, and the 100-yard dash, 11.2 seconds, while the half-mile run on a 389'95' "hot" put and York on a 26-second 220-yard dash.

BOB WEBER won the discus for Arlington's underclassmen at 105'. John Curran sped a 2:12.7 first in the 800-yard dash, while the 100-yard dash, 10.5 seconds, and the 200-yard dash, 21.6 seconds, were the half-mile run on a 389'95' "hot" put and York on a 26-second 220-yard dash.

Russel Hamm: A Story for Every Photograph

Russel V. Hamm, winner of 136 photographic awards, is now exhibiting almost 100 examples of his work at Northwest Community Hospital.

Engaged Couples,

The spiritual-psychological institute will begin on May 6 at 7:30 p.m. in Park Ridge at Lutheran Church. Dr. Carl Sessions will be held every Monday evening at 8:30 p.m.

The program of lectures and discussions is conducted by the department of pastoral care. A physician, psychiatrist, social worker and a spiritual-financial advisor will take part.

"All couples who are planning to marry or are thinking of their future are invited to attend the institute," the Rev. Lawrence L. Johnson, director of pastoral care, said.

"I don't snap my photographs, I make them," said Russel V. Hamm, a veteran of more than 30 years of photography.

Almost 100 samples of Hamm's work are now on exhibit at Northwest Community Hospital, Arlington Heights. Hamm can tell a 10-cent story about every photograph displayed.

"You fall in love with every picture as you make it," he said.

Hamm has spent 24 years with the Chicago Daily News and 16 years with the Chicago Tribune as a news photographer. He has won 36 different photographic awards, including four from the Chicago and New York World Fairs, three from the American Press Encyclopedia Britannica and in 1964, he was named the winner of the National Press Photographers "Oscar Award."

Some of the most popular he has taken include the Scopes monkey trial in Tennessee when "Clarence Darrow and Bryan were the popular Perry Mason and O'Malley of today"; the St. Valentine's Day massacre in Chicago; the inaugurations of Presidents Kennedy and Roosevelt and the actions of various Chicago gangsters during the prohibitions era.

What makes him a good photographer, Hamm replied, "is that I like to take pictures."

State Fair Parade Plans Shaping Up

Plans for the grand opening day parade of the 1968 Sesquicentennial Illinois State Fair are being made by the Illinois State Fair Commission.

The parade, which will start in downtown Springfield and proceed westward along the river through the main gate of the fair grounds and past the government buildings, will be covered by statewide television, radio and press.

Is there the Illinois State Fair in Springfield, and the city of Springfield in the state communities, organizations and manufacturing cities, groups to enter floats. "The floats may recognize and honor persons and institutions that have contributed greatly to the welfare of good life in Illinois," Ruth said.

Parade starting time is 11 a.m. for entries.

Deadline for entries is July 10.

To enter or to obtain information concerning the award, contact the Illinois State Fairgrounds, Springfield, Ill., 62706. Dates for the Illinois State Fair are Aug. 18-26.

Kindergarten Registration

Kindergarten registration for the 1968-69 school year will be available at the elementary schools. Fall has been scheduled for Aug. 27, and spring for May 22, each of the district's 15 buildings.

Registration hours are from 9 to 11 a.m. and from 1 to 2:30 p.m. on all four days.

The children must be five years of age or older to register. Parents may bring birth certificate at the time they register, or a baptismal certificate will be acceptable.

Parents may ask parents to pay a \$10 book fee, plus "milk money" at the time of kindergarten registration.

These schools will be holding registrations:

unit, most unique units, and the unit best depicting community spirit.

Harper Show Goes On Despite Restricted Space for Rehearsal

BY BETSY BROOKER

Harper College's first drama production, "The American Legion," will be presented at Erie Grove High School April 3.

The play, as play by Wilford Simon was presented by Sean Ryan, Gary Hubbard, Lynn Staub, and others under the direction of John Muchmore, assistant professor in drama.

Due to the temporary condition of the Erie Grove High School, the Harper drama program is greatly restricted. Presently, the students have a class introduction to the Theatre, instructed by Muchmore, and a class with the Harper Players, consisting of 30 members.

Most of the students in the drama class are also members of the Harper Players. The club sponsors all of the productions.

AS A RESULT of these restrictions, the Harper Players will only be performing one act plays this year. Other plays will be presented at the "Tiger" on April 17, 6:30 p.m., Rm. 71; and "Bunny Hump" on April 24, 7:30 p.m., Rm. 171.

"We could find the technical facilities outside of the school, but we want to serve our community and have decided that one act play is the best answer at this time," said Muchmore.

"Next year we anticipate the addition of an acting class and another class will come from the speech department. Perhaps, someone who is able to extend a program will be able to act play," continued Muchmore.

The Harper drama department, however, will most likely not be able to put on full scale production until the college has moved to a permanent campus in the fall 1970.

ACCORDING to Muchmore, they have had difficulty finding government offices and other individuals who, because of their work and service to their community, are recognized as community leaders.

Woods, Moore To Speak

Sheriff Joseph J. Woods and Cook County Jail Warden William Moore confirmed late yesterday that the route in Chicago they will take in their planned march in Arlington Heights this evening.

The officials are scheduled to speak before the April meeting of the Wheeling and Lake Zurich Civic Organization. The meeting is to be held at the VFW Hall at 611 North Cicero Ave., Northwest Highway at Yale. The public is invited to the meeting.

TOWNSHIP Republican Committeeman Eugene F. Schleicher said, "Winston Moore's talk here Thursday night caused me to realize his political address since he became sheriff of Cook Co. last fall. It is expected that he will discuss the program he is developing for the welfare conditions at the county jail. The program will require an immediate increase of 500 special citizen volunteer police of 1,000 men to assist in quelling disorders in Chicago and the suburbs."

Sheriff Woods is expected to discuss the possibility of violence in the Chicago suburbs.

Sheriff Woods recently was denied by a court ruling the appointment of a special citizen volunteer pose of 1,000 men to assist in quelling disorders in Chicago and the suburbs.

Urge Suit to Force Flood Safeguard

By DIANNE CRABBE

Mount Prospect officials may take Mount Prospect and western suburban villages to court in an attempt to force the village board to proceed with a combined storm and sanitary sewer system.

"The only way to make the Metropolitan Sanitary District legislature pay attention to our case is to sue them," said Daniel Congreve, "Maybe this is the best."

The purpose of the suit would be two-fold: to prevent more communities to the south and west from joining the M.S.D. and to force the sanitary district and commissioners to build separate systems, one for storm water and one for sewage.

The suit may involve not only the Sanitary District and its trustees, but also the city of Arlington Heights and other owners of combination sewers which still allow them to dump into Mount Creek, upstream of Mount

Roast Rack of Lamb Persillee

Roast rack of lamb for Easter dinner.

BY MARILYN HELFNER
Woman's Editor

After special church services on Sunday many families will be together to enjoy Easter dinner. A specially decorated Easter basket or tray of eggs is thought to have originated with the Persians, with the eggs being the sym-

bol of new life. Coloring them red is said to symbolize the blood of resurrection.

A roast rack of lamb is a traditional meal of Easter. In many parts of the country it is the choice. Most people seem to prefer the ready-to-cook ones.

When using them, read the instructions for cooking

printed on the wrapper. During the last half hour of baking a glaze may be brushed over the lamb.

An easy and tasty glaze is made of a light corn syrup and orange marmalade. Brush on half way through the baking. If roast lamb is your choice substitute dry Roast Rack of Lamb. Serve it with strained pan juices and a variety of vegetables.

Orange-glazed ham with fluffy mustard sauce.

coating with aluminum foil. Place lamb on rack in roasting pan. Roast for 20 minutes in a 350-degree oven. Meanwhile, combine instant onion and garlic with ¼ cup water.

Let stand for 10 minutes for onion and garlic to soften. Remove lamb from oven and turn around rack along with onions and garlic. Add wine, orange juice, butter, salt, thyme, pepper and bay leaves; sprinkle over lamb.

Reduce heat to 350 degrees; roast 1 hour longer, basting frequently. Remove lamb from a saucepan. Mix in bread crumb mixture and 1 cup mayonnaise, mustard, salt and Tabasco sauce into whipping cream. Serve with hot or cold sliced baked ham. Makes about 2 cups.

Mrs. R. Ridge
Woman's Club
President

At the April meeting of the Arlington Heights Women's Club, Mrs. Ruth M. Wolf was elected club president. Other officers elected were Mrs. Linda C. Johnson, first vice president; Mrs. Frank Carrier, second vice president; Mrs. Warren Clemons, corresponding secretary; Mrs. John Fribush, treasurer.

Two Good Friday services are planned at Grace Episcopal Church, 1000 North corner of Euclid and Wolf Roads, Prospect Heights.

The Good Friday service will be a children's service with members of the Altar Guild assisting. Help in removing items from the altar and a filer will also be helpful.

The annual Tenebrae Service, 7 p.m., with the senior choir providing special music. The service, "Dawn of Victory" will be shown.

Good Friday service.

Donations of \$1.25. Door and table prizes will be awarded and refreshments served during the service.

Tickets are available from Altar Members by calling CT 3-7795 or from the door.

Dorcas Aid Card Party April 17

A sold-out barbecue party will highlight the April activities of the Dorcas Aid of St. Peter Lutheran Church, Arlington Heights. The party will begin at 8 p.m. Wednesday, April 17 in St. Peter School cafeteria, 111 W.

Orive. Donation is \$1.25. Door and table prizes will be awarded and refreshments served during the party.

Tickets are available from Altar Members by calling CT 3-7795 or from the door.

Good Friday Acolytes

Kathy and Jason Dick, serving as acolytes at South Church Community United Methodist Project at the Tremonton Service on Good Friday, will extinguish the Altar Tabernacle candles as the crucifixion scenes are related, until only the Christ-conde remains lit in the darkened church.

Pharmacist reminds you to...
Be Prepared for
Any Emergency

Your family's good health deserves the
best care. Bring your prescription to Oscos Drug
for your assurance of high quality drugs and friendly
expert service.

Oscos Drug Pharmacy also has a complete
department of traditional home remedies and medicines for your family's health and well
being.

Festivals, tonics and remedies are
important. Some deteriorate with age; some get
stronger; some weaker. In any case, using old or
left-over medicines can be dangerous. So check your
medicine chest. Throw away left-over medicines
and replace them with fresh, effective products
from Oscos Drug.

The traditional symbol of the Lenten season — the shrouded cross — reminds us of the solemn, yet joyous, season as we anticipate church celebrations Sunday.

Five Vie for Two Seats On Dist. 23 School Board

Voters in School Dist. 23 will select tomorrow two of five candidates running for election to the Board of Education.

Four hopefuls are backed by the Dist. 23 Citizens for Bruce Wallace, an independent.

The caucused candidates are Melvin A. Laco, 3 Garden Ct., Prospect Heights; Edward W. Spitzig, 33, of 1991 Joseph Terrace, Arlington Heights; Patrick J. Tracy, 39, of 6 E. Clarendon Prospect Heights; the only independent candidate, Mrs. Ruth L. von der Heide, 303 E. Olive, Prospect Heights.

Laco, earned a BSSE degree from the University of Illinois Institute of Technology.

He is the director of research and development for a Crystal Lake firm and has spent the last six years. He spent the first year as a senator of the Whiting Flats Co. Council and has been a member of the group at the Institute of Electrical Engineering.

OF THE various candidates he is the only one heading work in establishing policy for the school board, he said.

"I have had experience in the business world and would be of most use in the building committee, since I had ample experience in the financial side," he said.

Laco and his wife, Mildred, have four children, ranging in ages from 10 to 16. His wife, Susan, has three children, aged one through 10.

He served an 8-degree at Lehigh University and now resides in the Prospect Heights area.

He is currently a member of the Illinois Council of the National Education Association.

His qualification for a school board seat, Spitzig said, is his ability to analyze problems and solve them.

He and his wife, Jean, have four children, whose ages range from two to 16.

Spitzig has a BA degree from the University of Pennsylvania, and now works as a senior systems analyst for a local firm.

He has served as president of the Prospect Heights Lions Club.

A memorial march for the Rev. Martin Luther King Jr. will be held Saturday morning at 7 a.m. at the Village Hall in Arlington Heights.

The service is open to anyone who wishes to attend. It will be conducted by the Arlington Heights Clergy Fellowship.

The public is invited to stay after the service for a community breakfast.

"In keeping with the spirit of the Rev. Dr. King, the march will take the form of a silent procession," Gilbert said. "The march will be led by a man relations committee, said today. "We ask the citizens of the village to join us in this observance," he said.

"My business training is to face and solve problems effectively," Spitzig said.

"I believe strongly that education is the key to our future."

Spitzig is currently a member of the Chicago Board of Education.

"My main interest in education," Spitzig said, "is education." He has spent 11 years as a teacher in the Chicago Board of Education.

"I would serve on any committee to which I was invited, especially in my capacity as a member of the Chicago Board of Education," he said.

Tracy has four children, whose ages range from 10 to 16.

He is a senior in the business administration program at the University of Wisconsin.

He is employed as a senior personal administrator by a publisher of educational materials.

He is currently a member of the Illinois Council of the National Education Association.

No Rioters in Suburbs, Sheriff Woods Pledges

BY RICHARD CRABB

The suburbs will not hear that they are rioting if there should be a coordinated riot in as many as 15 villages at the same time.

WHEELING TOWNSHIP Representative got a promise Thursday night from Cook County Sheriff Joseph Woods, who will be in attendance at a meeting of the regular Republican organization meeting at the home of the head of Arlington Heights.

Also appearing on same program were State Senator Moore of the Cook County Jail, making his first address to the public since his election to the jail a month ago.

"I think we would have a prayer if they came to the suburbs. That's what we are here for, what the suburbs will do. The suburban police departments are now too busy to meet with force with the superior force," Woods said.

Woods' 30 special deputies denied him by a 2-to-1 vote that he be placed by co-ordination of village police departments, backed up by the sheriff's

regular force.

"I would appeal the court decision," Woods said. "I am sure the ruling reversed, but the trouble is that the snow would not melt until the court makes its decision in court," said Woods.

Woods, a former FBI troubleshooter, exhibited a placard containing his formula of "react immediately without overwhelming force."

"They wouldn't have done that if they had been here," he said. "It is the act of responsibility that is important, not the place where it is done."

Woods' 30 special deputies announced that we should shoot on sight every person who was involved in a riot or on anyone's property, the American Civil Liberties Union said.

He said he would not represent the hoodlums. Woods' PROVED THIS. In Cicero, where he had been in last year's depths of our political life, he made it his position, we made it his position, to make the first act of shooting with overwhelming force, Woods said.

"I think if last weekend the hoodlums had been here, we would have had an immediate and overwhelming reaction," he said.

He said he would not be afraid to shoot on sight, he said, "if any hoodlum would shoot on your property."

be any leaders to represent; and there were none," Woods said.

Woods' observation that the trouble in Chicago past week was not caused by the hoodlums but had little connection with race riots.

More dismissed the reporter, saying:

"I read the Kersey report, it is well. Disorder report as we have just had in Chicago is not the act of hoodlums, but should be dash in with the police to stop the trouble last Friday just to see what kind of people are in the area controlled by the hoodlums."

"WHEN WE MOVED into the house, we found out that the neighbors had shot on sight every person who was in the area controlled by the hoodlums," he said.

"I think we moved into a house where we made a mistake. It is the act of hoodlums and should be dash in with the police to stop the trouble last Friday just to see what kind of people are in the area controlled by the hoodlums."

Sharif Joseph Woods, a leading figure in the Black Panther Party, said: "Rioters wouldn't have a leader if they came to the suburbs."

Woods vigorously defended the sheriff, saying that he believed in the principles of the Black Panthers, and that he was effective and did a good job.

"I've had the chemical shot in my face. It looks like a bullet hole in the face, but it is just a few millimeters away from the eye. It is not against the eye. I admit that Mace is irritating to the eye, but Black is harmful. We use it to scare off as possible as possible."

The proposed development also has an 18-hole golf course in Arlington Heights and is now designed to include a 100-unit residential complex.

The village said the golf course will be retained in the plans, and that the developer of single family homes would be given preference.

Gus Stevens told the legal committee of the Board of Trustees that the developer agreed to give nine acres for a school and park, and that he would be allowed to build additional apartments.

ASKED IF Stevens was being compensated for dismantling the property which is annexed to the golf course, Woods said he would be paid \$10,000 for his services.

Memorial Service Planned for Rev. Martin Luther King

A memorial march for the Rev. Dr. Martin Luther King Jr. will be held Saturday morning at 7 a.m. at the Village Hall in Arlington Heights.

The service is open to anyone who wishes to attend. It will be conducted by the Arlington Heights Clergy Fellowship.

The public is invited to stay after the service for a community breakfast.

"My experience as a memorial speaker has been a definite success," Woods said.

"I am a speaker and being familiar with the audience makes me a more effective speaker," he said.

"I also feel that my interest in the Rev. Dr. King has increased my willingness to speak whenever he is asked," Woods said.

Illinois Key to Nixon Win, Says State Campaign Manager

WILLIAM H.
REINHOLD

Baldwin Nixon believes that he must carry Illinois if he is to win the presidency in November. William H. Reinhold, Illinois chairman for Nixon, told a Chicago Sunday newspaper on the Loop Thursday afternoon.

"Nixon needs Illinois to win," Mr. Nixon

will campaign on the

campaign trail before the election,

Reinhold said.

"I definitely expect the

Chicago area to be the

decisive state in carrying

Illinois for Nixon in

September," he said.

About the role of the

northwest suburbs, Reinhold

said, "I think we'll do well in Wheeling, Elk Grove, and other towns in northern Cook County. That's where the decisive in putting Illinois to the Nixon column on Nov. 5. Mr. Nixon has to have Illinois to win."

At noon and of Thursday

premier, Reinhold announced

the names of top

members of his staff. In

Nixon's down-low cam-

paign will be Ray of Sprin-

ger, Roy of Sprin-

ger was named

Cook County manager

for the campaign. Roy

Papa was named

Chairman of the State

Committee for the campaign

in 1964 and senator in 1966.

He has helped in the cam-

paign for Rep. Donald Rumsfeld (R-Ill.). Papa is a Republican precinct captain in Chicago.

JOHN H. CLELAND, new

Republican committee man

of Chicago's 50th Ward, was

assistant. A journalism

graduate at the University

of Illinois, he worked in Nixon's 1960 campaign.

C. Chicago area and

dowtown offices for Nixon

were opened May 1. The

two offices directly

under Papa's direction will

be located in the Chicago Loop.

Other Nixon field organiza-

tions in the state will be

devote the next 30 days to

organizing field offices in

"A broad spectrum of

activities, from door-to-door

canvassing, convention

delegates and alternates,

fund raising, political

organizations, Young

Republicans and auxiliary

REINHOLD SAID.

In his office he has been polling the Illinois delegates and alternates to the convention.

The 125 persons polled

40 percent can't

recommence. Of the 42

replies, three-fourths list Nixon as their choice.

Reinhold said he listed

the choice of any delegate

as being a good indicator

they were undecided but leaning toward Nixon.

Reinhold said.

The objective of our cam-

paign is to get as many

delegates as possible to

Nixon's convention in Chicago.

Nixon is wrapping up

additional delegate strength

by a series of trips.

Our objective nationally is

to be the number one party,

he said.

Other comments by

Reinhold included the

following:

Sen. Percy is likely to

run again in 1972, he

said. He will be able to

get a lot of support from

the people who supported

Gov. Nelson Rockefeller

in 1968. "We had to take it"

he said. "But we will

make a show down at the convention.

Nixon strategy will

be to win on an early basis.

He will be able to do this

in this way cut a Rockefeller

convention effort.

ON APRIL 1, EUGENE

M. SCHNEIDER, CHIEF

OF POLICE IN CHICAGO,

said he thinks

Gov. Nelson Rockefeller

should not run again.

Gov. Rockefeller

is not Jack. He doesn't convey

that kind of grace. He conveys

that kind of power. He

spreads a lot of money

around.

On Vice President Hubert

Humphrey: — "He will be

an excellent vice president

but he is not a good

choice for president.

He is a good speaker and has the

backing of the big labor

leaders."

The joy and wonder in Jennifer Wilenphy's eyes is reflected by the prospect of having a chance to meet her favorite star, Jennifer, 7, of 2112 N. Berke, Arlington Heights.

Five in Dist. 23 School Contest

"I HAVE a sincere interest in the welfare of our children as well as the children of other people in the community," said Mrs. Helen L. Walenske, president of the Central School Board of Education.

"Since I have had a general background in building construction, I am familiar with the telephone company, I am a member of service on the school board, and have the confidence of the school board members.

Walenske and her wife, Dolores, have three children, aged four through nine.

She is a college level course at the Central Illinois Chapter of the International Association of Teachers.

Trip Choice: Air, Water, History

Some possible "where-to-go-on-vacation" areas are close to home, but it doesn't occur to most people that there are exciting places to visit right here.

O'Hare airport is an example.

They are places of views of familiar things.

"Or you may have seen Chicago either from the lake or the waterways that pass through it."

And there are places to visit that most everybody knows about, like toy and hobby stores, for example:

Greek Church to Celebrate Easter April 21

The Greek Orthodox Church celebrate Easter this year April 21, while other Christian churches observe it April 14. Only once in every few years do the calendar dates coincide.

Early as early as the second century there was a difference of opinion between East and West as to the proper day for the Commemoration of the Resurrection of our Lord.

THESE TECHNICAL differences persisted until the First Ecumenical Council of the Church of the Holy Spirit at the Sainted Emperor Constantine.

The 31 Fathers who composed that council were unanimous that Nicetas in 325 A.D. had made that mistake.

It was decided on the Sunday immediately following the Pascha, or Easter, which falls after the vernal equinox, (the first day of spring) but always after the 14th of April, in order to maintain consistency in the Biblical sequence of events.

The Orthodox Church has adhered to this formula since.

Today the practice of the West has not necessarily been preserved by the Eastern Passover.

In order to conform with the ancient practice of the Church of the East the Greek Orthodox Church will observe Easter April 21 so that the Pascha will come on the same date as the Western Easter.

Father Demetrios N. Transoulas of St. John the Baptist Greek Orthodox Church in Des Plaines will bless the new tabernacle donated to the church at the April 21 Easter Sunday church service.

Meditation

God Is Present in Our Affairs

BY THOMAS M. FRYER
BISHOP, CHICAGO AREA,
THE METHODIST CHURCH

Easter symbolizes the' secret love of God for all of mankind. Easter symbolizes suffering or death could stop God's love; Easter symbolizes that God is present in the affairs of men. Easter crystallizes the knowledge that God's presence is man's. Easter forever portrays the ultimate

triumph of good over evil. It gives meaning and perspective to all of life, and to all.

But this meaning comes in. Virtually, the cross, the rejections, the poverty and hunger of the world, it is easy to discern. It is in the amazing truth of Easter that the love of God is greater than hate, that truth will triumph.

WE ALL know that evil is very real in our world today, as it was at the time of Christ.

and that the same injustice, cruelty, and inhumanity that led to His death are present, today.

We think of the love in Virtuous acts, in rare rejections, the poverty and hunger of the world. It is easy to discern. It is in the amazing truth of Easter that the love of God is greater than hate, that truth will triumph.

GOD HAS NOT left us in despair. He still seeks us to tell us that in the year 1968 the most effective, the most eternal faith, the most eternal presence—all are available to us.

The events of the first Easter became the foundation of our Christian faith. Today, understanding, love, hope, and knowledge, we can go out anew to work toward the kind of world that God's love can be made more visible. We trust that He is with us, the guiding force of our destiny, and that He works through us.

Family Service Sunday

Easter will be welcomed with a family service of Holy Communion at 10:30 a.m. at Grace Evangelical Lutheran Church, Euclid and Webster Roads. From 9 to 10 a.m. the Junior Luther League and the Senior Luther League will have a free Easter breakfast for church members. Mr. and Mrs. William Zedler are sponsors of the junior league. Mr. and Mrs. John and Mary Louise Loving and Mr. and Mrs. George Kies are sponsors of the senior league.

At 9:30 and 11 a.m. Easter Services will be held. There will be two Sunday school services for program for the noon hour at 9:30 and 11 a.m. Easter plants will be \$1.50 each for all children present.

A workshop for vacation church leaders from 25 congregations will be held at 7:30 p.m. at Grace Evangelical Lutheran Church. The meeting is sponsored by the Committee on Committees of the Illinois Synod of the Lutheran Church in America. Dr. Robert G. of the Grace Lutheran Christian Education Committee and Rev. Dr. Carl H. Lohr, director, is handling the arrangements.

This is the season for spraying trees to kill the beetles which are responsible for spreading the dread Dutch elm disease. Spraying can be done until late in May. Spraying work needs to be done on windless days. The temperature must be above 40 degrees for good results. (Photo courtesy Davey Tree Service.)

Communities in northwest Cook County have found that elm disease can't be controlled, but it isn't easy.

Villages have found that the difference between keeping their elms healthy and letting them develop a control program is the ability to carry it out. The streets of Arlington Heights, Elmhurst and Mount Prospect are beautifully arched by elm trees because these towns have long maintained a strict control program. Other communities with no control program have not had the same success in getting their elm trees to stand with block trees.

Arlington Heights has preserved a greater number of elms in good health over a longer period of time than other municipality in the northwestern or western suburbs. The first signs of elm disease first became a problem in the late 1950's. Arlington Heights responded by immediately developing a program and has since maintained a strict control program consisting of spraying to kill disease carrying beetles, dead-stem removal and cutting trees after the leaves appear.

Disease has been same problem in the city of Rockford last almost all of its history. It is estimated that it would be impossible to remove a single elm from the city. The city has been fighting the disease ever since it was first discovered in 1930.

The disease is also killing elm trees in the state of Michigan and western Asia. The Russian city of Tashkent in Uzbekistan reported in 1958 that the disease entered that part of Asia.

Dutch elm disease is an infection which clogs up the vessels in the stem and vessels in human and as a result chokes the tree to death. The disease attacks the tree to tree by small insects, known as elm bark beetles, which fly from one elm to another.

It is still a mystery why the

marking trees showing signs of disease are dying earlier than other trees. If this disease exists and spreads, removal and burning may be the only choice which have the disease.

ARLINGTON Heights has reduced losses down to 1 or 2 percent of its original population per year. When Dutch elm disease was first discovered in 1958, the village had 14,000 elm trees. Some areas of Mount Prospect have been heavily hit by Dutch elm disease.

Spring spraying is almost finished," reports Sup. Cressner. "We should be able to tell those who have been sprayed whether the disease since our last inspection has spread to a contractor or a village's property. In those cases there is probably no need to replace the elm trees removed. Otherwise Dutch elm disease exists.

Of course there are many other factors involved in the spread of Dutch elm disease.

"The disease is spread by

the spruce bark beetle.

The cost of removing diseased trees is not a problem. The cost of replacing them can be stopped by applying insecticides to the tree in the form of a barrier between the trunk and the ground.

Other methods used to control the disease from spreading have included cutting off branches which have the disease in full vigor and such methods as the one developed at the University of Illinois.

The control program is costly and difficult to maintain.

The first step is to spray elm trees with a fungicide. This is done in the spring just before the leaves come out.

As soon as the leaves are out to remove the stems or parts of stems which show signs of damage, dead trees are cut down, sawed in half and buried to prevent the harboring of healthy trees.

There is also the opportunity

for the disease to spread through the ground from roots of one diseased elm tree to another. Any roots touching the soil

can be stopped by applying insecticides to the soil.

After the disease is

controlled, the next step

is to remove the diseased

trees.

After the diseased trees

are removed, the next step

is to plant new trees.

planted are American

present long rows of stumps.

MOUNT PROSPECT is another village that has maintained a strict control program since the 1950's. Dams Cressner, supervisor of parks and recreation, reports that with a population of more than 6,500 people, the village has removed about 100 trees all of last year. The average over the last three years has been about 65 trees cut and burned. Some areas have been completely free of Dutch elm disease.

Spring spraying is almost finished," reports Sup. Cressner. "We should be able to tell those who have been sprayed whether the disease has probably been removed.

After the leaves are out we will be able to tell those who have been sprayed whether the disease since our last inspection has spread to a contractor or a village's property. In those cases there is probably no need to replace the elm trees removed.

Audubon Society and the Elm Research Institute have been working on the use of chemicals to spray

of Dutch elm disease, tree removal and control of Dutch elm disease.

Keep Sharp

Keep your sense sharp while operating an electrical appliance. Any unusual vibration, unusual sound, odor or evidence of excessive heat can indicate possible malfunction.

Set Up Rigid Smoking Rules

Set up rigid family smoking rules for safety and advertising. The Institutes for Safer Living of the American Mutual Liability Insurance Co. has

that you do.

Their latest family and guest smoking habits account for the largest number of residents fire each year.

Rehearse

Home fire rehearsals are necessary to a polished performance, in case occupants are called upon to perform in a real-life drama.

Lights Brighten Outdoor Living

needed now.

LIGHTS placed high should be floodlights. Arrange them so that the circles of light overlap. Floodlights in adjustable fixtures are easy to move around.

Lighting only two or three feet off the ground such as along a walkway or path, should be shielded so that the light is aimed down.

Lighting over a deck or balcony area should be considered.

Outdoor lighting should be planned with safety in mind.

If there are trees, lights should be bright enough to illuminate them.

When trees are green,

lights should be brighter.

It is better to have bright lights along outdoor steps than a walk.

USE LIGHTS in areas where there is a great deal of movement. Front walkways, for example. Also consider the color of the paving. Light-colored pavers reflect more light than blacktop.

In the house, many lamps sit on shelves and give off light at eye level. Indoors, that's all right. But for exterior ground level lighting, place it either quite high to illuminate a walkway or low to concentrate it where it is needed.

Designed for Young and Old

Surveys of buyers and visitors at Lancer Park, in Schaumburg's newest community, show that most consumers' highly-rated schools and recreation-spots factor heavily in their major factors in choosing the area for family building and living.

Lancer Park, located in the southern part of Schaumburg, consists of two distinct residential communities, "Carlisle" and "Bennick." Both were opened to the public in 1967 and are being developed by Lancer Corporation.

BASIC HOME designs in both sections of Lancer Park, feature bungalows, split-levels, two-story end ranches. The great majority of homes have three bedrooms, except families with growing children, with prices ranging from \$24,500 to \$42,500; in Bennick, from \$22,500 to \$33,500.

The basic home is designed for growth on the same basic plan. It is built throughout Schaumburg—grand, high school and junior high schools, parks, swimming pool and park. The

pool is guarded at all times. Community schools provide a wide variety of educational services.

The large new Community High School is in Bennick. Junior High School, also in Bennick, is a modern, one-story, one-unit school.

ONE OF THE most popular spots in the entire community for "young citizens," is the public swimming pool and park. The

pool is guarded at all times.

THE BRITISH claim to have been able to control the disease by spraying a mixture of dead beetles and their larvae for a natural resistance to be established.

This method, however, does not seem to have worked satisfactorily, particularly where the towns of Haverhill, Uxbridge, and Rehoboth, Massachusetts, lost 63, and 47 percent of the

Don't

Be In

The Dark

-Don't blow your stock

Bone up on fuses, now. Then you will not be in the dark about what's going on, for very long, when the lights go out in your home.

It's important to know, if you plan ahead. Know the location of the fuse box and which circuit each fuse protects.

Paste a strip of the fuse, cut to size, across the fuse, and in two places inside the fuse box cover. Inside the photo shows how it's done.

When a fuse blows, disconnect the power at the source, turn on lights and connect another fuse. If the new fuse, after immediate replacement, turns on again, there is a short. After immediate replacement, if the fuse will blow again as soon as it is replaced, it is a short. However, the fuse may again after everything is hooked up again. This is probably a matter of overloading. Eliminate one or the other item.

Usually there are over a million dead beetles. Over 200 million have been reported dead from the die-off, which has been responding so rapidly.

Two varieties of the sin, the European and American, have been reported by the USDA to be equally effective against the beetle. Some commercial nurseries are furnishing them, but they are not commonly available now.

A BULLIONY was set for the new partnership of the Auburn and the Institute, ex-

Such a procedure is now being followed. The Auburn and the Institute ex-

-resistance to the disease.

The "Dutch" label attached to the disease came about because the first described and described in 1919, Prayville, Italy, was located in 1912 in England, and the disease spread to Russia, reaching Italy and Yugoslavia in 1929 and attaining a world-wide distribution by 1936, Tashkent in Uzbekistan in 1937.

THE "traveling" aspect of the disease is due to the fact that the beetle can fly. It has been recorded in parts of Scotland and Ireland, and in 1937, in the Alps, which had the deadly disease in the bark of its pine trees.

Is the pest a good or bad? The answer depends on whether it is a pest or not. The beetle which houses both the deadly disease in the bark of its pine trees.

Students think that the real

problem lies in the fact that the beetle is a carrier of a disease which may be fatal to the tree, and that the beetle itself is not a carrier of the disease.

Some varieties of the beetle are naturally resistant to the disease, while others are not.

A SHADY idea being studied is the selection of a feeding place for the disease, which might inhibit beetles from attacking a tree for as long as two years. This has been reported to be toxic for the beetle.

Alarming of local village officials and cooperation in reporting new cases on D.E.C. control.

Two new chemical treatments are now under test.

ANOTHER method of control is based on an odor exuded by female beetles which draws males to her. This is a natural method, which might lead to the development of a sex attractant.

Grain Gets 7-3 Win

Stingy 'Cats Chomps Niles N.

Making the most of their own mistakes and making some of their opponents' mistakes, Wheeling's Wildcats smacked Niles North 7-1 Thursday night in a solid straight win.

The visitors had three hits, two walks, and three Viking errors into a five run inning in the first and had made runs in all four of their seven on their field.

Marvin Clegg was playing errorless ball, and Marty Crain was holding Niles North to one run after three walks over five innings, while reliever Tim Ramey was mopping up the grating.

The Vikings bobbled those hits, two walks, and three Viking errors into a five run inning in the first and had made runs in all four of their seven on their field.

Marvin Clegg was playing errorless ball, and Marty Crain was holding Niles North to one run after three walks over five innings, while reliever Tim Ramey was mopping up the grating.

three hits and the Vikings' lone walk, and the Vikings started things for the Wildcats by singling, stealing second, and hitting a double to single to center in the first. He came back in the third to start another double, and then a commanding lead walking and again stealing second.

Trailing 6-0, Niles made a popping out right, and Al Mazzoni, hitting right, and Al Mazzoni, threw wildly to the plate, and the Vikings' first baseman who had three hits, sliced a double down the left field line.

Crain tightened up at that point, however, retiring the last three Vikings and getting the ball. Powell accepted up a low throw by Meier for a second out.

WHEELING GAME book to the Vikings in the fifth, knocking down a smash off the bat of Andy Rindos and getting the ball.

Rameret took the mound in the sixth, and the Vikings hit him twice, striking out and a walk, but striking out the last two batters.

Doubled by Lane Lyons and Babbale paddled the Wildcat home in the eighth, and the Vikings had three hits, sliced a double down the left field line into the parking lot.

Rameret struck out two in the rest of the liming-giving the Vikings one more chance to clean up the Vikings, but he did not.

Wheeling 2-0 so far, opens Mid-Suburban League play.

Crain pitched a 1-1 game in Prospect in a 1-0 win for the Knights.

Maine South Depth Tops Wheeling in First Outdoor Meet

By DAVID GARLAND

Wheeling's variety track squad was the best on a rather dismal note Thursday by losing a close one to Maine South, 106-92, at Hinsdale.

The Vikings set a jumping school record of 14.2 seconds in running the 100 yards, and Silvestri equaled the old Wildcat record of 14.8 taking another jump.

Silvestri also produced a first in the 100-yard low hurdles, a 14.2-second run, and a second in the long jump with an effort of 19.76. He also had a 20.2 in the low hurdles with a time of 20.7.

THE CATS did not have the depth to handle the talented Maine South team, and were only able to manage seven wins in the 12 field events. They were shut out in the mile run and the 800 relay.

Wheeling's first place wins did not mean real potential for head coach Jim Hoffman's young squad.

MIKE MITCHELL won two events, the high jump with a leap of 5'8 and the pole vault; 1. Mattie, W-13'; 2. Benda, M-5'8"; 3. Palachek, M-11'.

High jump: 1. Mitchel,

long jump with a 19' effort, while Bob Martin managed a first in the pole vault with a 14'6". He also had a second in the pole vault with a vault of 11'5" and second in the 1000 yards with a 220 dash. He had excellent times in both for the 1000 and 1600 yards, running the hundred in 10.3 and the 1600 in 22.8.

Despite his lack of job the Wildcat couldn't overcome the lack of depth in the field events, and was shut out in the mile run by sweeping the mile run, and winning the 800 relay.

The Vikings' best jump was 14.2 seconds in the long jump by Gary Hildebrandt, from Frank Savage, a sophomore.

The Cats are not 0-1 for the outdoor season in dual competition, having lost to Glen Ellyn, Niles East and Deerfield at Arlington in the first meet of the season Saturday at 1:30.
